

Techmaa – Website Enhancement & Development Requirements

1. Project Overview

Techmaa is an IT solutions company offering a wide range of services including software development, IT consulting, digital solutions, cloud services, UI/UX designing, and IT outsourcing.

The goal is to **redesign and upgrade the website** to make it look highly professional, modern, mobile-friendly, and trustworthy while integrating functional dashboards for candidates and clients.

FRONT-END REQUIREMENTS

1. UI/UX & Branding

- Design should reflect a **corporate IT look** similar to:
 - Google
 - Microsoft
 - Deloitte
 - Accenture
- Layout must be:
 - Clean
 - Minimal
 - Professional
 - Consistent across desktop & mobile

2. Color Palette & Visual Identity

- Create a **custom color palette based on Techmaa's logo**
- Color contrast should:
 - Be readable on all screens
 - Look premium and corporate
 - Maintain accessibility standards (WCAG)
- Suggested style:
 - Neutral backgrounds (white, light grey)
 - Primary brand color from logo
 - Secondary accent color for CTAs
- Fonts:
 - Sans-serif professional fonts (Inter, Poppins, Roboto, Open Sans)

3. Responsive Design

- Fully responsive:
 - Desktop
 - Tablet
 - Mobile
- Mobile-first approach
- Smooth scrolling & optimized spacing

4. Homepage Sections

- Hero banner:
 - Company tagline
 - Call-to-action (Get in Touch, Explore Services)
- About Techmaa
- Services overview
- Client & Intern testimonials (video format)
- Career opportunities
- Partner/Client logos
- Contact & query form

5. Testimonial Video Integration

- Real videos from:
 - Interns
 - Clients
- Features:
 - Carousel slider
 - Video thumbnails
 - Name, role & organization
- Purpose:
 - Build trust
 - Show authenticity
- Hosting:
 - Optimized MP4
 - YouTube/Vimeo embed option

6. Services Section

Each service should have:

- Dedicated page
- Description
- Key features
- Business benefits

Services to highlight:

- Software Development
- Software Solutions
- Digital IT Solutions
- IT Outsourcing
- UI/UX Designing
- Cloud Services
- Data Analytics
- AI/ML (if applicable)

7. Career Page

- Internship openings
- Job openings
- Each profile should include:
 - Job title
 - Role overview
 - Responsibilities
 - Required skills
 - Experience level
 - Apply button
- Every job/internship:
 - Custom logo/icon (Canva based)
- Filters:
 - Location
 - Experience
 - Department

8. Candidate Dashboard UI

- Same theme as main website
- Features:
 - Login/Register
 - Apply for jobs/internships
 - Application status tracking
 - Profile update
 - Upload resume

9. Client Query Box

- Floating or dedicated form
- Options:
 - Collaboration request
 - Project enquiry
 - General feedback
- Auto acknowledgement message
- Admin notification

10. Content Migration

- Extract all **necessary information from existing Techmaa website**
- Re-structure:
 - Clear headings
 - SEO optimized
 - Professional tone

BACK-END REQUIREMENTS

1. Admin Panel

- Manage:
 - Job postings
 - Internship postings
 - Testimonial videos
 - Website content
 - Applications
 - Queries
- Role-based access:
 - HR
 - Admin
 - Manager

2. Candidate Management System

- Features:
 - Registration & login
 - Resume upload
 - Application tracking

- Email notifications
- Database:
 - Candidate details
 - Applied positions
 - Status

3. Client Query Management

- Store:
 - Name
 - Email
 - Requirement
 - Message
- Admin actions:
 - Assign to team
 - Update status
 - Reply via panel

4. Career Module

- HR can:
 - Post jobs
 - Edit descriptions
 - Enable/disable openings
- Auto:
 - Application acknowledgement email

5. Video Testimonial Management

- Upload:
 - MP4
 - YouTube embed
- Categorize:
 - Intern
 - Client
- Display control:
 - Homepage
 - Dedicated testimonial page

6. Security & Performance

- SSL integration
- Role-based login
- CAPTCHA on forms
- Optimized images
- Fast loading
- CDN support

7. SEO & Analytics

- Meta tags
- Schema markup
- Google Analytics
- Search console
- Page speed optimization

ADDITIONAL PROFESSIONAL IDEAS

- ✓ Live chat support (WhatsApp or chatbot)
- ✓ Blog/Knowledge center
- ✓ Case studies section
- ✓ Client success stories
- ✓ Download company profile PDF
- ✓ Newsletter subscription
- ✓ Social media integration
- ✓ Dark mode option (optional)

TECHNOLOGY SUGGESTIONS

Frontend

- React / Next.js
- Tailwind CSS
- Bootstrap

Backend

- Node.js
- Laravel
- Django

Database

- MySQL
- MongoDB

FINAL GOAL

To create a:

- Trustworthy
- Corporate
- Scalable
- High-conversion website
that represents Techmaa as a **premium IT solutions brand**.
